## God And Being

<u>The Rev. David R. Graham</u> <u>Adwaitha Hermitage</u> September 10, 2007

## Life is life-threatening.

The Vision of God is not \*a\* Vision of \*God\*. It is \*the\* Vision \*of\* God.

The Vision of God is the Vision God has through Himself.

The Vision of God is seeing through Your Eyes as God sees through His Eyes.

## The language of love is laughter.

The being of God is being-itself.

The power of being and the structure of being are beingitself.

God is the power of being.

God is the structure of being.

God is the Mother and the Father of all beings.

Spirit is the unity of power and meaning. God is Spirit.

One is the unity of power and meaning. One is spirit.
