The attacks in Baghdad and southern Iraq this month [have al-Sadr's name on them](#). The attacks indicates a shift in the logical type of what is going on.

The architect, of course, is not al-Sadr but Tehran primarily and Syria sec-

ondarily. Shi'ites and Shi'ism are the source of the attack. In essence, the attack is one vector of the commencement of World War IV.

The other vector is the Wahhabi (al-Qaeda) attack in [Fallujah](#) last Wednesday against four [Blackwater employees](#).

The Fallujah attack is comparable to the German thrust into Poland on 1 September 1939. The Baghdad/south Iraq attacks are comparable to the Japanese attack on Pearl Harbor on 7 December 1941. The Wahhabi Sunnis of Fallujah actually got the ball rolling.

Everything until last week -- the seizure of Iran in 1979, the bombing and the seizure of Kuwait in 1990, the Afghan civil war in the 90s, all the bombings since and the restorations of Kuwait, Afghanistan and Iraq -- all of these were preparations of the battlefield.

World War IV started last week with those two attacks, one by Wahhabism and one by Shi'ism, who are ultimately enemies and would fight to the death if they were to survive mankind's counter-attack, which they will not.

The mullahs and imams of Wahhabism and imams and ayatollahs of Shi'ism and their followers are the enemy, which is properly termed imperialism by demonic clergy and scholars representing themselves as Muslims.

This imperialism dates from before [Nasser](#) and includes him and his principal legacy, the [Arab Socialist Union](#), aka the [Baath Party](#). [Idi Amin](#), [Robert Mugabe](#), [Charles Taylor](#) and the other African devils are evidence of the same imperialism by demonic clergy and scholars.

Political parties allied to demonic clergy and scholars include Hizbolah (The Party of God, by Shi'ite ayatollahs in Iran, Syria and Lebanon) and Hamas (wing of the Muslim Brotherhood, by imams of Wahhabism). Also allied are African clans such as led by Adid in Somalia and the government of Sudan. These various elements must be seen as a unity for now although if they were to succeed the Wahhabi and the Shi'ite clergy and scholars would square off against each other.

The world media are combatants on the side of these Wahhabi and Shi'ite terrible hegemonists.

The goals of the combatants in World War IV are:

Blues: destroy the imperialism of demonic clergy and scholars, Islamic, Hindu, Christian, Jewish, etc.

Reds: subject the world as one Islamic Nation under clergy and scholars of Wahhabism or Shi'ism.

Bottom Line: Wahhabism and Shi'ism must both be extirpated (= to pull up by the roots, to destroy totally). Both are violent heresies of Islam that are beyond redemption because they resist love and indeed revel in hatred. They are among the nations Bahá'u'lláh indicates need to be uprooted, their lands distributed among peaceful people so they cannot grow back.

"Judgment is an act of love which surrenders that which resists love to self-destruction." Paul Tillich.

The instrument of the self-destruction of Wahhabism and Shi'ism is the Human Army with the United States Army in the van together in leadership with the Indian, Russian, German and Japanese Armies. Other elements of the Human Army fighting Wahhabism and Shi'ism include the British, Spanish, Italian, Polish, Australian, Japanese, Jordanian, Israeli, Philippine, Canadian, French, Mongolian, Albanian, Bulgarian, Romanian, Lithuanian, Czech and El Salvadorian Armies to mention a few. Other national Armies that are members of the Human Army will join with these.

So everything till now has been battlefield prep, and on a global scale, and with Operation Iraqi Freedom and Operation Enduring Freedom bringing matters to a head. This threat of imperialism by demonic clergy and scholars needed to be brought to a head, as Churchill did with Hitler and Roosevelt with Tojo. Sadaam Hussein was a major perpetrator of imperialism by demonic clergy and scholars such as [Michel Aflaq](#). A [demonic cleric](#) founded the so-called Islamic Republic of Iran. (Note his eyes!)

World War IV is going to take a while but not as long as many think it will. Two to three years if the nations' leaders bear down, four to ten if they do not.
